

# Australia's hospital coding & auditing specialists

# Resolutions

Resolutions is a highly experienced health information consultancy that has been servicing the health sector for 25 years. We offer a full suite of services including on site and remote clinical coding support, coding and documentation audits, as well as education on all aspects of health information management. Add to this our web-based day hospital clinical coding tool, VisiCODE and web-based auditing tool, ResiCAT and it's easy to see why Resolutions are Australia's hospital coding and auditing specialists!

## Clinical Coding

Resolutions has been providing coding services to the health industry for 25 years. Our experienced and reliable team of clinical coders have an exceptional reputation for their coding accuracy and output rates. Whether remote or on-site, short-term relief or ongoing support, Resolutions can help you!

## VisiCODE

VisiCODE is a web-based clinical coding application for day hospitals, small private hospitals and day units. This easy-to-use automated system will improve your business performance by improving cash flow, reducing costs and ensuring efficient and accurate coding.

## Auditing

Resolutions' experienced auditors perform coding, documentation, revenue optimisation and system audits to ensure that your facility is providing quality coded data and meeting all funding & statutory compliance requirements. We will identify the root cause for any coding variances so that these can be rectified to provide value data and appropriate DRG assignment & reimbursement.

## ResiCAT

ResiCAT is a web-based auditing tool which allows you to audit your existing clinical coding, documentation, quality standards and data fields. Find missed or incorrect codes and HAC opportunities to increase revenue in a streamlined, automated process. ResiCAT identifies the root cause of coding errors.

## Education

Education programs can be customised to the particular needs of your organisation, including coding and casemix knowledge. Delivered remotely or on-site, Resolutions will provide a course valuable for new or existing staff to improve their skill set.

## Day Hospital Coding Course

Our Day Hospital Coding Course is a cost-effective, practical training solution for Day Hospitals. The course is delivered by correspondence and participants can choose to complete the speciality modules relevant to their facilities.
